

BOND EX SPRAY

SOLVENTS AND DEGREASERS

- **Easy to apply**
- **Ideal for removing adhesives, sealants and chewing gum**
- **Does not affect paints and most plastics**
- **Evaporates quickly and without leaving residues**

PRODUCT DESCRIPTION :

Bond ex spray is a technical cleaning agent for the removal of many types of adhesive quickly and efficiently. The product makes the most adhesives and sealants weak so it will be easy to remove them.

APPLICATIONS :

Bond ex spray is suitable for all metals and most plastics. It is also safe to use on all modern finishes. This makes it ideal for removing stickers, emblems, body side moldings and any remaining glue residue. Also, sealant and adhesive residues that remain after the dismantling etc., removes perfectly without damaging the substrate.

INSTRUCTIONS:

Shake before use. Applying from a distance of ± 25 cm and leave product approx. 10 to 15 minutes. In case of large glue residue first remove the upper layer and then apply product again.
